Subject: New Jersey Counties Excess Meeting Report

Camden Metro Police: In 2011 the Fund passed Resolution 36-11 which resolved that the Fund shall not provide workers compensation or liability coverage on behalf of or for the police officers of the Camden County Police Department or any other County Police Department. The resolution was subsequently clarified allowing the “Department” to assess the commercial insurance of the Fund such as the property insurance and ancillary coverages where there is no sharing of the losses amongst members. As the Metro Department start operations they are beginning to hire police for administrative and management responsibilities under the Camden County budget. It is our understanding that no patrolling or traditional police activity has commenced. The Board of Fund Commissioners agreed to allow coverage for Camden until such time as police begin actual patrol of the City or a fixed date prior to that event. Fund Attorney was authorized by Board to amend Resolution 36-11 memorializing the action for the next meeting. Commissioners White, Smith and Angilella volunteered to serve on a sub-committee to work with the Executive Director to review the Metro Department.

Commission Membership Renewal: Camden County Insurance Commission and Gloucester County Insurance Commission renewed their membership with the Fund for the term of January 1, 2013 to December 31, 2015. The fund office has made the appropriate filings with the State.

2013 Budget - In accordance with the regulations, the budget adopted by the Fund has been advertised in the Fund’s official newspaper, as well as, filed same with the State.

NJCE JIF Website: Legislation passed last year required governmental entities to have a website to host public information, such as agendas, minutes and budgets with a deadline of February 5th. The fund office will obtain letter quotes from vendors for a web-hosting service with approximate costs to be between \$2,000-\$4,000. The Board of Fund Commissioners authorized the Executive Director and Fund Attorney to negotiate final terms with the website vendors and appoint a vendor for ratification by the Board, based on the terms and conditions negotiated, at the next meeting.

Financials: Executive Director reviewed the Financial Fast Track as of April 30, 2012 stating that the fund’s current statutory surplus is currently \$1,315,537.

2013 Reorganization & Meeting schedule: The February 28, 2013 meeting will serve as the Fund's reorganization and the Board of Fund Commissioners agreed to the 2013 meeting dates, which will be held at 1:00pm in the Camden County College Regional Training Center.

Request For Proposals Professional Services: The NJCE released Request for Proposals for Executive Director, Underwriting Manager and Safety Director, which were due on January 23, 2013. The Fund Attorney reported that one firm responded to each position and that a sub-committee of Chairman DiRado, Vice-Chairman Smith, the Fund Attorney and Fund Treasurer will meet to review the responses and confirm appointments at the February fund meeting.

Remarketing of the Meadowbrook Casualty Program: Underwriting Manager confirmed that Meadowbrook is resigning from the governmental market at the end of this year; and in an effort to create an alternative program, both the Executive Director and Underwriting Manager have participated in presentations to several governmental risk underwriters. In addition, the Safety Consultant has also accompanied insurance company inspectors to numerous facilities within Camden County with additional visits are being scheduled in other counties. Underwriting Manager reported that various self-insured retentions and program structures are being reviewed and would report any new activity at next month's meeting.

Risk Control: Safety Director's report included a report reflecting the risk control activities from December through February 2013.

Claims Administrator: Claims Administrator provided a summary report of claims to date.

2013 Property & Casualty Budget Introduction: Executive Director reported at the December 6, 2012 meeting of the Fund, the 2013 Property & Casualty Budget was introduced. In accordance with State regulations, the budget has been advertised in the Commission’s official newspaper and posted at the Clark’s office. The Public Hearing for the budget will be held at this meeting. A copy of the proposed 2013 budget was included on page 18 of the agenda.

Executive Director reviewed the budget and said the total proposed budget for 2013 stands at \$1,317,434. Executive directors said a few of the line items were adjusted in the budget. The claims adjustment was at \$31,000 and it was reduced to \$22,000. The actuary and auditor fees were the bid amounts and they were slightly raised to fund enough in those line items. The attorney budget was taken out. Overall the adjustments did not change the total budget.

2013 Meeting Dates: Executive Director said the Fund has established meeting dates of the first Thursday of the month. Fund Websites: Executive Director reported the state has established a requirement for all Funds to have a stand alone website. An RFP has been published and we have one proposal from DHS Marketing Solutions. Executive Director said the project proposal was for \$2,500.

Most of the Funds throughout the state are obtaining quotes and this fee does fall in line with the other quotes that have been received. Diane Sparks of DHS Marketing Solutions said that this fee is to get the website up and running. Every year there will be an annual fee, Next year the fee to maintain the sight would be lower and would cost approximately \$540.00.

Mr. Hrubash said the attorneys for each of the other county funds have looked at the website requirements and found they have to be a separate and autonomous sight with the ability to link to the county website, but not be part of the county website. Executive Director said it has to be a searchable website and we will need a domain name.

SAFETY COMMITTEE REPORT

Glenn Prince reported the Safety Committee met on November 28th and it was well attended with 31 attendees present. The Executive Safety Committee met on December 26, 2013. Emergency Action Plans for all buildings were discussed as well as emailing Toolbox Talks to all department heads to get the safety message out. We are looking at continuous safety messages throughout all of the county buildings to remind all employees and to encourage a safe working environment at all times. We also discussed the online delivery of safety related information to all employees. Through Dave Strout we also had a court security meeting scheduled for January 23, 2013 at 1:30 pm to try to implement these emergency action plans as soon as possible. Our next safety meeting will be held on January 23, 2013 at 2:00pm.

Dave Strout said they did have an evacuation plan somewhat in place, but with the new building and the change of location of some workers, they are going to relook at the plan and also include a lockdown plan.

CLAIMS COMMITTEE REPORT

Claims Manager Robyn Walcoff reported on December 17, 2013 the Claims Kickoff Meeting was held and it was very well attended by representatives from the County of Salem. Claims Manager reported she and Dave Strout will be working together to put together a Claims Committee Charter and getting the claims committee set up. We will hold monthly Claims Committee meetings in advance of the Commission meetings so we can present the claims to the Commission. Executive Director said that since the commission will be meeting every other month we can also have a conference call if need be to review the claims payments when necessary. Final payment requests will come to the Board for approval.

CEL SAFETY DIRECTOR REPORT

Safety Director reported we have scheduled the loss control surveys for 2013. Our goal is to identify hazards before they become a problem and make the appropriate corrections. 4.) The amount of unpaid claims to be established.

a.) The general reserving philosophy is to set reserves based upon the probable total cost of the claim at the time of conclusion. Historically, on claims aged eighteen (18) months, the Insurance Commission expects the claims servicing company to set reserves at 85% accuracy. The Insurance Commission also establishes reserves recommended by the Insurance Commission's Actuary for claims that have been incurred but not yet reported so that the Insurance Commission has adequate reserves to pay all claims and allocated loss adjusted expense liability.

b.) Claims reserves are subject to regular review by the Insurance Commission's Executive Director/Administrator, Attorney, Board of Commissioners and claims servicing company. Reserves on large or unusual claims are also subject to review by the claims departments of the commercial insurance companies or reinsurance companies providing primary or excess coverages to the Insurance Commission either directly or through the NJC JIF.

5.) The method of assessing contributions to be paid by each member of the Insurance Commission.

a.) By November 15th of each year, the actuary computes the probable net cost for the upcoming Insurance Commission year by line of coverage and for each prior Insurance Commission year. The Actuary includes all budget items in these computations. The annual assessment of each participating member entity is its pro rata share of the probable net cost of the upcoming Insurance Commission year for each line of coverage as computed by the Actuary.

b.) The calculation of pro rata shares is based on each member's experience modified manual premium for that line of coverage. The Insurance Commission's Governing Body also adopts a capping formula which limits the increase of any member's assessment from the preceding year to the Insurance Commission wide average increase plus a percentage selected by the Governing Body. The total amount of each member's annual assessment is certified by majority vote of the Insurance Commission's Governing Body at least one (1) month prior to the beginning of the next fiscal year.

c.) The Treasurer deposits each member's assessment into the appropriate accounts, including the administrative account, and the claim or loss retention trust Insurance Commission account by Insurance Commission year for each type of coverage in which the member participates.

d.) If a member entity becomes a member of the Insurance Commission or elects to participate in a line of coverage after the start of the Insurance Commission year, such participant's assessments and supplement assessments are reduced in proportion to that part of the year which had elapsed.

e.) The Insurance Commission's Governing Body may by majority vote levy upon the participating member entities additional assessments wherever needed or so ordered by the Commissioner of Insurance to supplement the Insurance Commission's claim, loss retention or administrative accounts to assure the payment of the Insurance Commission's obligations. All supplemental assessments are charged to the participating member entities by applicable Insurance Commission year, and shall be apportioned by the year's assessments for that line of coverage.

f.) Should any member fail or refuse to pay its assessments or supplemental assessments, or should the Insurance Commission fail to assess funds required to meet its obligations, the Chairman, or in the event by his or her failure to do so, the custodian of the Insurance Commission's assets, shall notify the Commissioner of Insurance and the Director of

Community Affairs. Past due assessments shall bear interest at the rate established annually by the Insurance Commission's Governing Body.

6.) Procedures governing loss adjustment and legal expenses.

a.) The Insurance Commission engages a claims service company to handle all claims. The performance of the claims adjusters is monitored and periodically audited by the Executive Director's office, the Insurance Commission Attorney, the NJC's attorney's office, as well as the claims department of the NJC's three major excess insurers (i.e. Star Insurance for excess liability and workers' compensation; Everest National and Star & Indemnity for excess liability). Every three years, the NJC's internal auditors also conduct an audit.

b.) Each member entity is provided with a claims reporting procedure and appropriate forms.

c.) In order to control workers' compensation medical costs, the Insurance Commission has engaged a managed care organization (MCO) *through the claims service company* whose procedures are integrated into the Insurance Commission's claims process.

d.) To provide for quality defense and control costs, the Insurance Commission has established an approved defense attorney panel with firms which specialize in Title 59 matters. The performance of the defense attorneys is overseen by the Insurance Commission Attorney, as well as, the various firms which audit the claims adjusters.

7.) Coverage to be purchased from a commercial insurer, if any.

The Insurance Commission does not purchase commercial insurance.

8.) Reinsurance to be purchased.

The Insurance Commission does not purchase reinsurance.

9.) Procedures for the closure of Insurance Commission years, including the maintenance of all relevant accounting records.

a.) Not applicable at this time.

10.) Assumptions and Methodology used for the calculation of appropriate reserves requirements to be established and administered in accordance with sound actuarial principles.

a.) The general approach in estimating the loss reserves of the Insurance Commission is to project ultimate losses for each Insurance Commission year using paid and incurred loss data. Two traditional actuarial methodologies are used: the paid loss development method and the incurred loss development method. From the two different indications resulting from these methods the Insurance Commission Actuary chooses a "select" estimate of

ultimate losses. Subtraction of the paid losses from the select ultimate losses yields the loss reserve liability or Insurance Commission funding requirement.

b.) The following is an overview of the two actuarial methods used to project the ultimate losses.

- Paid Loss Development Method - This method uses historical accident year paid loss patterns to project ultimate losses for each accident year. Because this method does not use case reserve data, estimates from it are not affected by changes in case reserving practices. However, the results of this method are sensitive to changes in the rate of which claims are settled and losses are paid, and may underestimate ultimate losses if provisions are not included for very large open claims.
- Case Incurred Loss Development Method - This method is similar to the paid loss development method except it uses historical case incurred loss patterns (paid plus case outstanding reserves) to estimate ultimate losses. Because the data used includes case reserve estimates, the results from this method may be affected by changes in case reserve adequacy.

11.) The maximum amount a certifying and approving officer may approve pursuant to N.J.A.C. 11:15-2.22.

- \$10,000 for workers compensation claims
- \$7,500 for liability claims
- With the advance approval of the Insurance Commission Attorney or Executive Director, the certifying and approving officer may also pay hospital bills if waiting until after the next regularly scheduled Insurance Commission meeting would result in the loss of a discount on such bills. When the certifying and approving officer utilizes this authority, a report shall be made to the Commissioners at their next meeting.

Adopted by the Governing Body this 7th day of February 2013.
